BAIDI WANG

baidiwang30@gmail.com | LinkedIn | Portfolio

Design Engineer, formerly at Google and Axios, building interactive, AI-powered web and mobile products with TypeScript, React, MUI, Framer Motion, Three.js, and SwiftUI. Works AI-native with Claude Code and Codex, with design tools including Figma and Claude Design.

Skills

- **Frontend:** HTML/CSS, JavaScript, TypeScript, React, Redux, MUI, Tailwind, Next.js, D3.js, Three.js, Framer Motion
- **AI Tools:** Claude Code, Codex, Cursor, Lovable, GitHub Copilot
- **Design:** Figma, Claude Design, Adobe Illustrator, After Effects (Motion Graphics), Datawrapper, Mapbox
- **Mobile**: Swift, SwiftUI, React Native, Kotlin, Jetpack Compose
- **Backend:** Node.js, Express.js, RESTful API, MongoDB (Mongoose), PostgreSQL, OpenAI/Claude API
- **XR & Game:** Unity (C#), XR Interaction Toolkit, Lens Studio, Blender

Experience

Google — **UX Engineer (Contractor) | June 2023 - March 2024**

- Built interactive Google Play prototypes with **React, TypeScript, Redux, and MUI** to enhance user experiences.
- Partnered with UI designers across Google Ads, Google Japan, and other product teams to **translate complex Figma designs into high-fidelity functional prototypes**.
- Implemented **motion**, **animations**, and **interaction design** using **Framer Motion**, delivering animated UI experiences that matched product design specifications.
- Integrated **Firebase** to capture interaction data enabling **UX research teams** to validate design decisions.
- Built and extended an **MUI-based** component library, contributing reusable, design-consistent components.

Axios Media — **Data Visualization Engineer | Dec 2021 - Aug 2022**

- Designed and developed interactive data visualizations using **JavaScript** and **D3.js**, making independent **visual design decisions** on chart types, color schemes, and information hierarchy.
- Applied Axios's **internal design system** to maintain visual consistency across editorial graphics and interactive features.
- Used **Datawrapper** and **Illustrator** for static graphics; **Python (Pandas)** and **R** for data cleaning and preparation.

Projects

Pocket – Private AI World App — **Sep 2026 - Present**

- Designed and developed Pocket, an **AI-powered iOS app** that transforms photos, voice notes, doodles, and words into evolving worlds revealed through **sensory-first interaction**. Built an interactive web prototype and currently developing the native app in **SwiftUI**.

Breadcrumb – ADHD Working-Memory Companion — **June - Aug 2026**

- Designed and built an AI-powered **desktop app** (**Tauri, React, TypeScript**) that reconstructs a "where was I?" brief after attention shifts. Extended with a persistent-memory backend **(CockroachDB vector search, Claude extraction, AWS Lambda)** for the CockroachDB × AWS Hackathon.

Lily – AI Voice Assistant — **April 2026**

- Built a real-time voice AI agent with **Next.js** and **TypeScript** using **Claude Code**, integrating the **OpenAI Realtime API** over **WebRTC** for live transcription and tool calling for note capture and task creation.

Education

University of Southern California — **M.S. in Integrated Design, Business and Technology | GPA: 3.75 | Aug 2025 - Present**

Penn State University — **B.A. in Visual Journalism | GPA: 3.66 | May 2018**
